

1986-2016: Celebrating 30 years working in the community

General Description of Property Holdings

Set up as a registered social landlord in 1986, the Association's initial aim was to improve the tenemental properties in the centre of Barrhead and we soon thereafter started a programme of building new properties for rent. Now the majority of our housing stock is new build. In 2001, we successfully transferred 245 homes from Scottish Homes and quickly completed the key improvements required, which included the demolition of properties in Auchenback – these have been replaced with new terraced houses and flats.

In 2004 we became a registered Scottish charity.

We are now a key locally controlled housing association owning over 930 properties through East Renfrewshire, although mainly in Barrhead, Neilston, Newton Mearns and Thornliebank.

This includes 15 new affordable homes that we built in 2016 in Darnley Road, Barrhead.
