

T-SHIRT YARN AND KEYCHAIN

My Materials List:

AN OLD TSHIRT

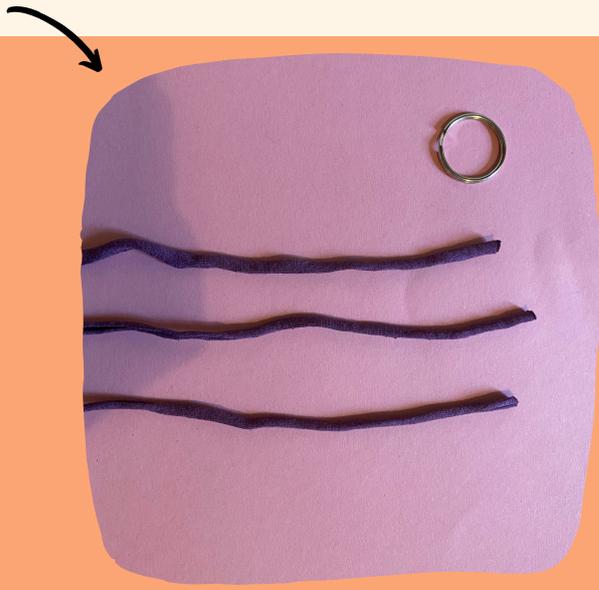

SCISSORS

A KEYCHAIN
LOOP

STEP BY STEP: SPIRAL KEYCHAIN

Step 1 - Take your t-shirt yarn and cut 3 strips the same length, ideally around an arm lengths, it really depends how long you want your keychain.

Step 2 - Fold one edge of the yarn down between 1/4-1/2 way down to create a loop at the top.

Step 3 - Take the loop and put it through the key ring and pull the long strands through the loop to create a lark's head knot.

Step 4 - Repeat this with the other yarn and make sure you turn your keychain over so the above side of the knot is facing you. Tape in place.

STEP BY STEP: SPIRAL KEYCHAIN

Step 5 - Take the left strand and make a 4 shape over the middle strands.

Step 6 - Take the right strand and place it over the end of the 4 then loop it under all the strands.

Step 7 - You should see a knot forming.

Step 8 - Pull tight and the top should start to look like the above.

STEP BY STEP: SPIRAL KEYCHAIN

Step 9 - Continue this technique the whole way down.

Step 10 - To tie off the end, take the longest strand and fold it over all the strands twice, creating a cross.

Step 11- When you bring it back around, tuck it from the top to make sure all the strands are hanging down.

Step 12 - Chop the ends to your preferred size and you are done!

Quick Facts

it takes about 2,700 litres of water to make just one t-shirt, which is enough water for one person to drink for 900 days. (The Conscious Challenge, 2019).
